MONTERO MINING AND EXPLORATION LTD.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
MARCH 31, 2012 AND 2011
(Expressed in Canadian dollars - unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Montero Mining and Exploration Ltd (“Montero”) was incorporated on October 5, 2006, under the laws of British Columbia, Canada. Montero and its subsidiaries (collectively, the “Company”) are primarily engaged in the acquisition and exploration of mineral properties in Tanzania, South Africa and Canada.

Montero is a publicly listed company with its shares listed on the TSX Venture Exchange (“TSX-V”). The Company’s registered office is located at 1040 West Georgia Street, Vancouver, BC, V6E 4H3 and its head office is located at 20 Adelaide Street East, Suite 400, Toronto, Ontario, M5C 2T6.

Going Concern

These condensed consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at March 31, 2012 the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company’s continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management is of the opinion that sufficient working capital will be obtainable from external financing sources (primarily through private placements of common shares) to meet the Company’s liabilities and commitments as they become due, although there is risk that additional financing will not be available on a timely basis or on terms acceptable to the Company.

2. STATEMENT OF COMPLIANCE

The condensed consolidated interim financial statements of the Company, including comparatives, have been prepared in accordance with IFRS issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

These condensed consolidated interim financial statements comply with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. These condensed consolidated interim financial statements do not include all of the information required of a complete set of consolidated financial statements and are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and the performance of the Company since the end of its last annual reporting period. It is therefore recommended that these condensed consolidated interim financial statements be read in conjunction with the annual consolidated financial statements of the Company for the year ended December 31, 2011, which were prepared in accordance with IFRS as issued by the IASB.

3. BASIS OF PRESENTATION

These condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of their application as the most recent annual consolidated financial statements of the Company for the year ended December 31, 2011. The condensed consolidated interim financial statements have been prepared on an accrual basis and are based on historical costs, except for certain financial instruments which are measured at fair value. The condensed consolidated financial statements are presented in Canadian dollars, unless otherwise indicated.

4. HELD FOR SALE ASSETS

On October 18, 2010, the Company's subsidiary, Montero Projects Limited ("Montero Projects") entered into a binding term sheet agreement with Celtic Trust Company Limited ("Celtic"), whereby Montero Projects had the exclusive right to acquire the shares in Celtic's subsidiary (Eurozone Investments Limited, hereafter "Eurozone") which hold interests in subsidiary companies that hold 4 phosphate exploration projects in South Africa ("Phosco"). Montero Projects paid an advance of \$101,700 (USD \$100,000) to be granted an exclusivity period, which expired on July 18, 2011, to complete due diligence on the Phosco assets. This payment was used to settle the liabilities of Eurozone. Effective July 18, 2011, an amendment to the binding term sheet agreement was executed, whereby Montero Projects agreed to acquire the shares in Eurozone by issuing 2,500,000 common shares of Montero. The due diligence was completed, approval was received from the TSX-V and on November 10, 2011, the Company issued the 2,500,000 common shares to complete the acquisition of Eurozone.

An additional 1,000,000 common shares of Montero may be issued as consideration if a mining industry compliant report (the "Report") is obtained, indicating a phosphate inferred resource on certain prospecting rights of the Phosco assets (the "Bierkraal Project"). The Company has 18 months to conduct an exploration program on the Bierkraal Project and, if at the end of this period, the Company has not obtained the Report or given notice to Celtic that they intend to obtain the Report, the Company shall offer to transfer back the shares of the subsidiary that holds the Bierkraal Project to Celtic for no consideration.

The fair value of the assets received could not be estimated reliably, so the amounts were calculated using the fair value of the instruments granted in accordance with IFRS 2, *Share-based Payment*. The fair value of the common shares was calculated using the trading stock price of Montero, which resulted in the fair value of the shares being valued at \$750,000, representing the total consideration paid for Phosco. The transaction did not constitute a business combination as Eurozone did not meet the definition of a business under IFRS 3 *Business Combinations* and therefore was originally accounted for as an acquisition of a group of exploration and evaluation assets and other related assets and liabilities.

The Company has now determined that it would be appropriate to sell its Phosco assets. On March 22, 2012 the Company engaged AltaCorp Capital Inc. ("Advisor") to assist them in completing a sale. The agreement with the Advisor provides for a payment of a success fee to the Advisor of 4% of the transaction value subject to a minimum success fee of \$250,000 if the Phosco assets are sold within six months of the expiry of the agreement. The agreement with the Advisor is in effect until the earlier of i) the date which is three months from the date of the agreement and ii) the date the Phosco assets are sold. It is not presently known when or in what specific manner the Phosco assets may be sold. Although management is committed and expects to sell the Phosco assets within a year, there can be no assurances that a sale will take place and the timing of such a sale is uncertain.

In accordance with IFRS, the Company has now presented its Phosco assets as *Held for Sale* assets which comprise the following:

Reclamation bonds	\$ 33,154
Exploration and evaluation assets	1,548,503
Held for sale assets	1,581,657

a) Tanzania

Wigu Hill Project

On May 26, 2008 (amended June 30, 2009 and April 27, 2010) the Company and RSR (Tanzania) Limited ("RSR") entered into an agreement whereby RSR granted the Company an exclusive option to earn an initial 60% interest in the Wigu Hill Project (the "First Option"), and an additional 10% interest in the Wigu Hill Project (the "Second Option"). The terms and conditions of the final amended agreement on April 27, 2010 are outlined as follows. In order to exercise the First Option, the Company must pay United States Dollars ("USD") \$150,000 on or before April 30, 2010 (paid). After the exercise of the First Option, RSR will transfer the prospecting licences comprising the Wigu Hill Project (the "Wigu Hill Licences") to a newly-formed company (established and called - Wigu Hill Mining Company Limited "WHMC") and the Company will concurrently pay RSR a further USD \$50,000 (paid). The Company is further obligated to incur exploration expenditures of USD \$3.5 million (incurred) (or alternatively complete a prefeasibility study) on or before November 28, 2012. Once completed, the Company may at its sole discretion, within 60 days after November 28, 2012, elect to acquire a further 10% interest in the Wigu Hill Licences by paying RSR a further USD \$2,000,000 to complete the requirements to execute the Second Option.

On September 22, 2011, the Company and RSR executed a Shareholders' Agreement, which outlines the following:

- a. amended the payment of USD \$2,000,000 to an initial Second Option payment of \$800,000 (paid) and a final Second Option payment of USD \$700,000, which is to be paid subject to receipt of mining and retention licences granted by the Government of Tanzania, as well as a development agreement executed by the Government of Tanzania and the Company. By mutual agreement between the Company and RSR, the USD \$700,000 payment may be satisfied by the issuance of common shares of Montero at the prevailing market price of such shares at the date of payment.
- b. agreement that the Company has now duly and validly exercised the First Option and the Second Option, and now owns a 70% interest in the Wigu Hill Licences.
- c. RSR has transferred the Wigu Hill Licences to WHMC which is owned 70% by the Company and 30% by RSR. Further funding of exploration on the Wigu Hill Licences shall be provided by the Company and RSR in proportion to their ownership of WHMC.
- d. dilution provisions are provided subject to a deemed expenditure formula and, and where a party's interest is diluted to less than 10%, conversion of such interest to a 2.5% net smelter returns royalty ("NSR") will be done. The Company has the right to purchase all or part of the NSR for USD \$1 million per each 0.5%.

After the establishment of WHMC, further exploration costs were incurred by the Company and RSR has not yet paid their share of these costs, which at March 31, 2012 were determined to be \$795,548 (USD \$796,265) and have been included in exploration and evaluation assets. Management has not recorded RSR's share as a receivable, as discussions are currently underway with RSR concerning a potential dilution of RSR's interest in WHMC.
