MONTERO MINING AND EXPLORATION LTD.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SEPTEMBER 30, 2016 AND 2015
(Expressed in Canadian dollars - unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

Montero Mining and Exploration Ltd (“Montero” or the “Company”) was incorporated on October 5, 2006, under the laws of British Columbia, Canada. Montero and its subsidiaries (collectively, the “Company”) are engaged in the acquisition and exploration of mineral properties in Tanzania and South Africa.

Montero is a publicly listed company with its shares listed on the TSX Venture Exchange (“TSX-V”). The Company’s registered office is located at 1040 West Georgia Street, Suite 1900, Vancouver, BC, V6E 4H3 and its head office address is Suite 1128, 789 West Pender Street, Vancouver, BC, V6C 1H2.

Going Concern

These condensed consolidated interim financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30, 2016 the Company had not advanced its exploration and evaluation assets to commercial production and is not able to finance day to day activities through operations. The Company’s continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These conditions give rise to substantial doubt about the Company’s ability to continue as a going concern. When further funds are required, they will be financed through a private placement of common shares or by debt instruments. Subsequent to the quarter-end, the Company received cash from further loans payable of \$10,000 in loans and settled \$686,025 of trade and other payables by the issuance of 13,720,495 common shares (Note 16). In conjunction with this debt settlement, an additional \$321,450 of trade and other payables were released by the vendors and written off to debt forgiveness for a total debt settlement of \$1,007,475 of trade and other payables (Note 16).

2. STATEMENT OF COMPLIANCE

The condensed consolidated interim financial statements of the Company, including comparatives, have been prepared in accordance with IFRS issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

These condensed consolidated interim financial statements comply with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. These condensed consolidated interim financial statements do not include all of the information required of a complete set of consolidated financial statements and are intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and the performance of the Company since the end of its last annual reporting period. It is therefore recommended that these condensed consolidated interim financial statements be read in conjunction with the annual consolidated financial statements of the Company for the year ended December 31, 2015, which were prepared in accordance with IFRS as issued by the IASB.

The condensed consolidated interim financial statements were authorized for issue on November 10, 2016 by the Audit Committee of the Company.

3. BASIS OF PRESENTATION

These condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of their application as the most recent annual consolidated financial statements of the Company for the year ended December 31, 2015. The condensed consolidated interim financial statements have been prepared on an accrual basis and are based on historical costs, modified where applicable. The condensed consolidated interim financial statements are presented in Canadian dollars, unless otherwise indicated.

(Expressed in Canadian dollars - unaudited)

4. EXPLORATION AND EVALUATION ASSETS

A summary of the Company's exploration and evaluation assets by property area is as follows:

	September 30, 2016	December 31, 2015
	\$	\$
South Africa - Phosco	1,349,752	1,314,909
Tanzania - Wigu Hill	1,216,912	1,215,687
	2,566,664	2,530,596

a) South Africa
Phosco Project

On November 18, 2011, the Company's subsidiary, Montero Projects Limited ("Montero Projects") acquired the shares in Eurozone which holds interests in subsidiary companies that hold phosphate exploration projects in South Africa (hereafter, "Phosco"). Montero Projects paid \$101,700 (United States dollars "USD" \$100,000) and issued 2,500,000 common shares of Montero, valued at \$750,000, and completed the acquisition of Eurozone. The Company now holds two licences covering the Duyker Eiland and Phillips Kraal areas.

On August 19, 2014, the Company entered into a letter agreement, which was subject to legal and technical due diligence, with Ovation Capital ("Ovation", a South Africa based investment firm) to develop the Phosco Project. A definitive Exploration and Co-development Agreement ("Agreement") was signed on March 2, 2015 between Montero Projects and Mellosat Proprietary Limited, Montero's subsidiaries, and Business Venture Investments No. 1709 Proprietary Limited ("BVI"), an Ovation company whereby BVI would finance a Pre-feasibility Study (to be completed within 12 months of signing of the Agreement) to earn 10% of Phosco and would further finance a Bankable Feasibility Study (to be completed within 24 months of signing the Agreement) to earn an additional 20% of Phosco, for a total potential ownership of 30% of Phosco. BVI have indicated that they would like to proceed directly to the Bankable Feasibility Study and forgo the initial one year milestone, to be completed by March 2, 2017, which would then entitle them to earn 30% of Phosco.

The Company has a total of \$9,393 (December 31, 2015 - \$9,393) in reclamation bonds and deposits lodged with local governments in regards to any potential reclamation costs that may arise regarding its Phosco Project.

Greenflash Project

On August 20, 2015, the Company entered into a binding letter agreement with Greenflash 251 (Pty) Limited ("Greenflash") to acquire up to a 75% interest in the Greenflash Off-Shore Phosphate Project ("Greenflash Project") in South Africa. Montero has six months to complete the financial, legal and technical due diligence and to obtain TSX-V approval. Once this is completed, Montero would earn 49% interest in the Greenflash Project, by committing to complete an NI43-101 compliant resource and could earn up to 75% interest by completing a Bankable Feasibility Study.

On August 25, 2015, the Company has also entered into a Memorandum of Understanding with Ovation to co-fund the due diligence of the Greenflash Project. Upon successful completion of the due diligence, Ovation shall have the right to earn 49% of Montero's interest in the Greenflash Project by proving funding to complete the NI43-101 compliant resource.

Montero and Ovation have concluded their due diligence and decided not to continue with the Greenflash Project.

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SEPTEMBER 30, 2016 AND 2015
(Expressed in Canadian dollars - unaudited)

4. EXPLORATION AND EVALUATION ASSETS – Continued

b) Tanzania
Wigu Hill Project

On May 26, 2008 (amended June 30, 2009 and April 27, 2010) the Company and RSR (Tanzania) Limited (“RSR”) entered into an agreement whereby RSR granted the Company an exclusive option to earn an initial 60% interest in the Wigu Hill Project (the “First Option”), and an additional 10% interest in the Wigu Hill Project (the “Second Option”). The terms and conditions of the final amended agreement on April 27, 2010 are outlined as follows. In order to exercise the First Option, the Company must pay United States dollars (“USD”) \$150,000 on or before April 30, 2010 (paid). After the exercise of the First Option, RSR will transfer the prospecting licences comprising the Wigu Hill Project (the “Wigu Hill Licences”) to a newly-formed company (established and called - Wigu Hill Mining Company Limited “WHMC”) and the Company will concurrently pay RSR a further USD \$50,000 (paid). The Company is further obligated to incur exploration expenditures of USD \$3.5 million (incurred) (or alternatively complete a prefeasibility study) on or before November 28, 2012. Once completed, the Company may at its sole discretion, within 60 days after November 28, 2012, elect to acquire a further 10% interest in the Wigu Hill Licences by paying RSR a further USD \$2,000,000 to complete the requirements to execute the Second Option (amended as outlined below).

On September 22, 2011, the Company and RSR executed a shareholders’ agreement, which outlines the following:

- amended the payment of USD \$2,000,000 to an initial Second Option payment of \$800,000 (paid) and a final Second Option payment of USD \$700,000, which is to be paid subject to receipt of mining and retention licences granted by the Government of Tanzania, as well as a development agreement executed by the Government of Tanzania and the Company. By mutual agreement between the Company and RSR, the USD \$700,000 payment may be satisfied by the issuance of common shares of Montero at the prevailing market price of such shares at the date of payment.
- agreement that the Company has now duly and validly exercised the First Option and the Second Option, and owns a 70% interest in the Wigu Hill Licences.
- RSR has transferred the Wigu Hill Licences to WHMC which was originally owned 70% by the Company and 30% by RSR. Further funding of exploration on the Wigu Hill Licences shall be provided by the Company and RSR in proportion to their ownership of WHMC.
- dilution provisions are provided subject to a deemed expenditure formula and, and where a party’s interest is diluted to less than 10%, conversion of such interest to a 2.5% net smelter returns royalty (“NSR”) will be done. The Company has the right to purchase all or part of the NSR for USD \$1 million per each 0.5%.

After the establishment of WHMC, further exploration costs were incurred by the Company and RSR has not yet paid their share of these costs which at September 30, 2016 were determined to be \$1,594,281 (USD \$1,215,431) and have been included in exploration and evaluation assets. Management has not recorded RSR’s share as a receivable due to the uncertainty of payment. RSR was put on notice for its contribution required and advised that dilution will occur if payment is not received. The notice period for receipt of payment has expired and therefore Montero increased its ownership of the WHMC to 82.25%.

In common with all mining companies, licences are required to be renewed in order to maintain ownership. Montero regularly reviews its licences and meets the local governmental requirements on the licences it plans to renew. In particular, Montero has been granted a Retention Licence on its Wigu Hill Project which is valid until February 13, 2020.

SEPTEMBER 30, 2016 AND 2015
(Expressed in Canadian dollars - unaudited)

5. LOANS PAYABLE

These amounts are due from companies that have a director in common with the Company and to a third party associate. The total amount of loans and accrued interest owing to companies that have a director in common with the Company are \$552,140 and to the third party associate is \$33,515. The loans are unsecured, bear interest at 12% and have now been extended to a due date of February 28, 2017. The loans payable amounts also include \$93,242 of accrued interest (December 31, 2015 - \$53,648). During the nine months ended September 30, 2016 interest of \$39,594 has been charged to finance costs (nine months ended September 30, 2015 - \$24,658).

Subsequent to the quarter-end, a further \$10,000 was advanced to the Company subject to the same terms noted above (Note 16).

6. SHARE CAPITAL

Authorized

Unlimited number of common shares without par value.

Issued and outstanding

At September 30, 2016 there were 71,031,679 issued and fully paid common shares outstanding (December 31, 2015 – 71,031,679).

Details of changes to share capital

None during the period.

Stock options

The Company has established a Stock Option Plan (the "Plan") for directors, officers, employees and consultants. The number of common shares that are available for grants of options under the Plan shall not at any time exceed 10% of the number of outstanding common shares, calculated at the time of grant. Options granted under the Plan generally have a term of five years and vest on the date of the grant.

A summary of the continuity of the Company's stock options is as follows:

	September 30, 2016		December 31, 2015	
	Number of Shares Issuable	Weighted Average Exercise Price \$	Number of Shares Issuable	Weighted Average Exercise Price \$
Options outstanding, beginning of period	3,270,000	0.32	4,620,000	0.27
Granted	-	-	-	-
Expired	(1,240,000)	0.50	(1,350,000)	0.21
Options outstanding and exercisable, end of period	2,030,000	0.20	3,270,000	0.32

The stock options expire as follows: 625,000 options with an average exercise price of \$0.38 in December, 2016 and 1,405,000 with an average exercise price of \$0.125 in 2018. The weighted average remaining contractual life of the outstanding stock options is 1.16 years.

MONTERO MINING AND EXPLORATION LTD.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SEPTEMBER 30, 2016 AND 2015
(Expressed in Canadian dollars - unaudited)

7. WARRANTS

A summary of the continuity of the Company's warrants is as follows:

	September 30, 2016		December 31, 2015	
	Number of Shares Issuable	Weighted Average Exercise Price	Number of Shares Issuable	Weighted Average Exercise Price
		\$		\$
Warrants outstanding, beginning of period	-	-	11,731,020	0.24
Expired	-	-	(11,731,020)	0.24
Warrants outstanding, end of period	-	-	-	-

The warrant reserve records the fair value of warrants associated with private placements and the fair value of agent's warrants until such time that the warrants have expired, at which time the corresponding amount will be transferred to share-based payment reserve. If the warrants are exercised prior to expiry, the corresponding amount will be transferred to share capital.

8. SHARE-BASED PAYMENT RESERVE

The Company's share-based payment reserve is comprised of the following:

	\$
Expired warrants	5,086,472
Expired stock options	1,507,211
Unexpired stock options	277,496
Balance, September 30, 2016	6,871,179

The share-based payment reserve records items recognized as stock-based compensation expense, the fair value of expired warrants associated with private placements and the fair value of agent's warrants. If the stock options are exercised prior to expiry, the corresponding amount will be transferred to share capital.

9. LOSS PER SHARE

Basic loss per share amounts are calculated by dividing the net loss for the year by the weighted average number of ordinary shares outstanding during the year. The basic and diluted loss per share are the same since the Company reported a loss for the period and therefore the effect would be antidilutive.

	September 30, 2016	September 30, 2015
Net loss attributable to owners of the parent company	\$ (261,071)	\$ (238,448)
Weighted average number of ordinary shares outstanding	71,031,679	71,031,679
Basic and diluted loss per ordinary share	\$ (0.01)	\$ (0.01)

Refer to Note 16 for the debt settlement transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of these condensed consolidated interim financial statements.

11. RELATED PARTY TRANSACTIONS – Continued

Related party balances

The following amounts due to related parties are included in trade and other payables:

	September 30, 2016	December 31, 2015
	\$	\$
Due to related parties	974,310	797,516
Loans payable (Note 5)	552,140	402,211

The amounts due to related parties represent amounts due to directors and officers or companies which have directors in common, or in which the directors have significant influence and interests. These amounts are included in trade and other payables and are unsecured, non-interest bearing and are due within twelve months. The terms of the loans payable are outlined in Note 5. Subsequent to September 30, 2016, \$563,325 of the trade and other payables due to related parties were settled by the issuance of 11,266,495 common shares and further amounts of the trade and other payables due to related parties totalling \$311,444 were released and written off to debt forgiveness (Note 16).

12. SEGMENTED INFORMATION

The Company has one business segment being the exploration and evaluation of mineral resources. The Company is organized by geographic area and as such, its reportable operating segments are located in Canada, Tanzania and South Africa.

Information regarding the Company's geographic segments is as follows:

As at September 30, 2016				
	Canada	South Africa	Tanzania	Total
	\$	\$	\$	\$
Reclamation bonds	-	9,393	-	9,393
Plant and equipment	-	-	18,110	18,110
Exploration and evaluation assets	-	1,349,752	1,216,912	2,566,664
Total non-current assets	-	1,359,145	1,235,022	2,594,167
As at December 31, 2015				
	Canada	South Africa	Tanzania	Total
	\$	\$	\$	\$
Reclamation bonds	-	9,393	-	9,393
Plant and equipment	-	-	29,655	29,655
Exploration and evaluation assets	-	1,314,909	1,215,687	2,530,596
Total non-current assets	-	1,324,302	1,245,342	2,569,644

13. NON-CASH TRANSACTIONS

There were no non-cash transactions during the nine months ended September 30, 2016 or nine months ended September 30, 2015 that are not reflected in the statement of cash flows:

14. CAPITAL MANAGEMENT

The Company manages its capital to ensure that it will be able to continue as a going concern, while supporting the Company's business and maximizing the return to its stakeholders. The Company's capital structure is adjusted based on management's decisions to issue debt or equity instruments to fund expenditures. In order to maximize ongoing exploration efforts, the Company does not pay dividends. The Company's Board of Directors does not establish quantitative return on capital criteria, but rather relies on the expertise of management and other professionals to sustain future development of the business. The capital of the Company consists of equity attributable to owners of the parent comprised of share capital, stock options and warrants.

The Company's principle assets are in the exploration and evaluation stage and, as a result, the Company currently has no source of operating cash flow. In order to facilitate the management of capital and exploration of its mineral properties, the Company needs to raise capital as and when required to complete its projects and for working capital. The sources of future funds presently available to the Company are through the issuance of new share capital, through the exercise of stock options and/or warrants or through borrowings from related parties. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions, as well as the business performance of the Company. There can be no assurances that the Company will be successful in its efforts to arrange additional financing, when required, on terms satisfactory to the Company.

Management prepares operating budgets to forecast its financing requirements in advance and they review their capital management approach on an ongoing basis and believes that this approach is reasonable, given the relative size of the Company. The Company's investment policy is to hold excess cash in interest-bearing accounts at high credit quality financial institutions to minimize risk and maximize liquidity. The Company's overall strategy remains unchanged from the prior period. The Company is not subject to any externally imposed capital requirements.

15. RISK MANAGEMENT

The Company operates in the mining industry and faces a number of risks that could adversely affect the Company's operations. These risks include industry risk, credit risk, liquidity risk, interest rate risk, foreign currency risk, commodity price risk. Management reviews and develops policies for managing each of these risks which are summarized below.

Industry Risk

The Company is engaged in the mineral exploration field, which is subject to inherent risks of success as well as compliance with environmental, political and regulatory requirements. The Company is potentially at risk for environmental reclamation obligations associated with resource property interests. As well, the Company operates in foreign countries and is subject to local political risks, as well as local regulatory requirements regarding ownership and maintenance of mineral licences. Management is of the opinion that they have the expertise to address these risks and makes all efforts to conduct their business in compliance with local industry standards, however environmental and local industry laws and practices are complex, and there is no certainty that all exposure to liability or costs have been mitigated.

Credit Risk

Credit risk is the risk of loss associated with a counter-party's ability to fulfill its payment obligations. The Company's primary exposure to credit risk is attributable to its cash and cash equivalents, as well as trade and other receivables. This risk relating to cash and cash equivalents is considered low since the Company only invests its cash in major banks which are high credit quality financial institutions. The trade and other receivables primarily comprise local sales tax refunds due from governmental agencies and, as such, management considers the risk

15. RISK MANAGEMENT – Continued

with their collection minimal. The cash and cash equivalents are invested in short-term investment certificates for periods less than 90 days and the trade and other receivables are due in less than 90 days.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations due over available financial assets at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available cash in order to meet its liquidity requirements and to develop budgets to forecast cash requirements in advance of their requirements. The Company currently does not have a source of operating cash flow and must raise funds for its exploration and evaluation programs and for general working capital. There are risks associated with raising the funds required, and there can be no assurances that the Company will be successful in its efforts to arrange additional financing on terms satisfactory to the Company. The Company's trade and other payables are generally due within 90 days, with all amounts due within twelve months. The Company's loans payable are due on February 28, 2017.

Interest Rate Risk

Interest rate risk refers to the risk that the fair values of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to interest rate risk on its cash equivalents which represent excess cash invested in short-term investments and these accrue interest at variable market rates. The Company monitors these investments with its need for cash flow and is satisfied with the return on these investments, given the timing of the need for cash in the Company. The Company has a fixed interest rate on its loans payable. The effect of interest rate changes on the Company is insignificant.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company operates in Canada, South Africa and Tanzania and portions of its expenditures are incurred in US dollars, South African Rand and Tanzanian Shillings. The Company's presentation currency is the Canadian dollar, the Tanzanian subsidiaries' functional currency is the United States dollar and the South African subsidiaries' functional currency is the Canadian dollar. At September 30, 2016 and 2015, the value of financial assets and liabilities denominated in currencies other than the functional currency of the entity to which they relate is not significant.

Commodity Price Risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is the potential adverse impact on earnings and economic value of its exploration and evaluation assets, due to commodity price movements and volatilities. The Company monitors commodity prices (primarily rare earth elements and phosphates) to determine the appropriate course of action to be taken by the Company.

16. EVENTS AFTER THE REPORTING PERIOD

Subsequent to September 30, 2016 the following events took place:

- a) On October 12, 2016 the Company received additional amounts totalling \$10,000 in regards to loans payable which are subject to the terms as described in Note 5.
- b) On October 24, 2016, the Company received TSX-V approval and completed a debt settlement transaction with certain vendors ("Debt Settlement"). Pursuant to the Debt Settlement, the Company settled trade and other payables totalling \$686,025 by issuing 13,720,495 common shares at a deemed price of \$0.05 per common share and obtained the release of further amounts totalling \$321,450 for a total debt settlement of trade and other payables totalling \$1,007,475.
